OF SCHOOL LANDS.

Committee Appointed to Formulate Meeting Today-Amount of Lands Which Will Accrue to the State-Applications Made.

If forty people settled on a quarter section of school land in the days prior to the settlement of the country, per government survey, and the same forty people would like to purchase the same at this day, what will thirty-nine of them do if the other fellow kicks? That is a question which is agitating

the state board of land commissioners There are several instances where people came here years ago and located school lands-unwittingly of course. Now that the state has been the recipient of several thousands of acres of these lands the title must be cleared. of these lands the title must be cleared. There are forty acres in one quarter section and the law says that land shall be sold in parcels of not less than 40 acres. While thirty-nine of the inhabitants might want to buy the other fellow might kick over the traces and say he did not and that he would go to the government for a title for what he lived on, and there would be a good time generally.

Hence when this matter was brought ARMY POSTS.

Hence when this matter was brought up yesterday there was a whole lot of discussion and at the end of the same the board did not know where it was at, but decided that in order to straighten out matters it would appoint a committee to formulate some rules, which was done, Messrs. Hammond, Walton and the attorney general tables the committee. ral being the committee.

The board did not have much to do yesterday owing to the fact that only a few applications for lands were filed. But things will be different in a few days. There will be more work to attend to than the commission will be prepared to attend to and get its reg-

Yesterday was an easy day. The only matters which came up were the only matters which came up were the following:

James S. Rawlins of Draper made a protest against the title of forty acres in township 3, range I east, the same being part of section 16. This protest was filed and will come up later.

James H. Beck made an application for 120 acres in the same section referred to above, similar action being taken.

C. A. Madsen of Gunnison filed an application in behalf of himself and others for some saline lands in the district. These lands properly belong

to the university lot.

D. M. Todd of Logan wants a section for grazing purposes. "Quil" Nebeker declares for two entire townships.

The first application applies to lands in Cache, the second to lands in Rich. No action was taken upon any of the above, and they will come up later Up to date the board has not ap-
